

# O.R.E.O. Online Project 2016

## Instruction Worksheet and Final Tally Information

### Materials:

- Regular O.R.E.O. cookies (not double stuff – unless you wish to do the extension activity)
- Tablecloth or paper plates to stack cookies
- Pencil or pen to record amount of cookies after they have tumbled
- Attempt Worksheet
- Submission Form

### Directions:

- Each student will have 2 attempts to create a cookie stack.
- Students will place **one** cookie on the paper plate/table cloth and **add one cookie at a time** to the stack.
- Students may **NOT** adjust the cookie after they have placed the cookie on the stack and moved their hand away. Cookies need to be freestanding and **NOT** leaning against any kind of support or use any kind of adhesion so they stick together. Cookie needs to be a regular cookie and not separated in ANY way.
- Another student should be tallying as the student stacks.
- A tumble has occurred once **1 or more** cookies have tumbled off the stack. The complete stack DOES not need to completely tumble for it to be called a tumble.
- Once a tumble has occurred the student needs to record their stack count onto the attempt worksheet.
- Whether the student attempts their second stack now or at another time is at the discretion of the teacher.

Once all students (and teacher too) recorded their stack totals, please add up all **largest** cookie stack attempts from each person, and divide by amount of people who have stacked to determine average length stacked.

Please submit the class **AVERAGE LENGTH STACKED** via the online form (available on results page)

### O.R.E.O. 2016 SUBMISSION INFORMATION

Results may be posted starting on September 12, 2016 to October 15, 2016

**1. Teacher Name**

**2. School Name**

**3. School Location (state--two letter initial please, province --Canada participants or your country)**

**4. School Postal Code**

**5. Grade**

**6. # of Stackers**

**7. Average Stack of all Stackers (must be in whole numbers)**

### O.R.E.O. Sculpture Information

All participants are welcome to create sculptures from the O.R.E.O. cookies. Check your email for the link to our google slide show to add your sculpture pictures.
